

PAID INTERNSHIPS

for PhD Students and Postdoctoral Fellows

Biomedical Careers Initiative (BCI)

The Biomedical Careers Initiative (BCI) provides PhD students and postdoctoral fellows with **PAID** internship opportunities at diverse host sites, including Biotech/Pharma, Consulting, Data Science, Science Communications, Science for Business, Science Administration, and more.

Since the BCI program's inception in 2013, **94 PHD-LEVEL INTERNS** have engaged in internship opportunities with **28 EMPLOYERS** in diverse industries. The program has been featured in prominent journals include *Nature*, *Cell*, *Science News*, and *The Scientist*.

Why do an internship?

- Clarify Career Goals
- Explore a New Field
- Break into a Company / Industry
- Gain Experience before a full-time job
