

Sibley Memorial Hospital

Sibley Memorial Hospital, located in northwest Washington, D.C., has a distinguished history building on more than 125 years of being first to provide new procedures, invest in leading-edge technologies and create exceptional facilities—all with the goal of transforming health care and becoming the national model for innovation in a community hospital.

As a not-for-profit, full-service community hospital, Sibley offers surgical, obstetric, psychiatric, oncologic and skilled nursing inpatient services. Its campus is also home to Grand Oaks, an assisted living residence, and the Sibley Renaissance, which houses the Center for Rehabilitative Medicine, Sibley Senior Services, specialty centers, a skilled nursing care unit and a residential Alzheimer's unit. The Medical Building provides outpatient services including the Sibley Ambulatory Surgery Center, imaging and Sibley Primary Care.

Sibley Memorial Hospital includes 200 all-private rooms, a state-of-the-art Emergency Department, a nationally recognized orthopaedics program, expanded women's and infants' services to house Washington's D.C.'s busiest maternity program and the Johns Hopkins Kimmel Cancer Center. The Kimmel Cancer Center brings local access to world-renowned oncology experts, clinical trials, cancer treatment and patient and caregiver support to the greater Washington area. The Center is also home to the Johns Hopkins National Proton Therapy Center and our pediatric radiation oncology program in collaboration with the Children's National Hospital, the only program of its kind in D.C.

Our Mission and Vision

Mission: To provide excellence and compassionate care – every person, every time.

Vision: Sibley will be the role model for innovation in health care and wellness for all.

A Member of Johns Hopkins Medicine

Sibley Memorial Hospital has been a member of Johns Hopkins Medicine (JHM) since 2010. JHM is one of the world's premier, integrated health systems. It has six academic and community hospitals, four suburban health care and surgery centers, over 40 patient care locations, a home care group and an international division, and it offers an array of health care services.

Key Services

Oncology

- Home to the Johns Hopkins Kimmel Cancer Center in Washington, D.C., we offer medical, radiation and surgical oncology, palliative care, clinical trials, social services and support groups.
- The oncology program is accredited as a Comprehensive Community Cancer Program by the American College of Surgeons Commission on Cancer.
- The Sullivan Breast Center, staffed by dedicated breast radiologists and surgeons, is one of the most trusted programs in Washington, D.C. Digital curved mammography and 3D mammography is available. Our mammography services are certified by the American College of Radiology Mammography Accreditation Program and the Food & Drug Administration. The Breast Center is accredited by the National Accreditation Program for Breast Centers) and was designated a Breast Imaging Center of Excellence by the American College of Radiology.
- The Sibley Center for Gynecologic Oncology and Advanced Pelvic Surgery provides personalized, comprehensive care and effective surgical treatment

using innovative techniques and the latest technology.

- Sibley has an orthopaedic oncologist that specializes in treating bone and soft tissue sarcomas, as well as a thoracic surgeon that specializes in thoracic oncology.
- Through a unique collaboration with Children's National Hospital, Sibley offers the only dedicated pediatric radiation program in D.C., and the only academic pediatric radiation program in the region.
- Groundbreaking Johns Hopkins Medicine clinical trials are available at Sibley, giving local patients access to Johns Hopkins specialists, new drugs, therapies before they are widely available.
- The Johns Hopkins National Proton Therapy Center will open in fall 2019. Proton beam technology is a very precise form of radiation therapy that allows for shorter treatment times and fewer side effects. The Center will be dedicated to the advancement of state-of-the-art proton therapy care via three treatment rooms for adults; for children with a dedicated pediatric team; and a section for research.
- Sibley's Multidisciplinary Prostate Clinic connects surgeons, radiation oncologists, medical oncologists, pathologists and radiologists who discuss a patient's case together.

Obstetrics

- Sibley enjoys a well-earned reputation as one of the area's preferred places to have a baby, delivering more than 4,200 babies a year, more than any other hospital in Washington, D.C.
- Our approach to childbirth is family-centered, and we work with each family to help provide the birthing experience they desire.
- Two floors are dedicated to women's and infants' services, featuring large private rooms with sleep sofas, an advanced infant security system, a real-time locator system

JOHNS HOPKINS MEDICINE

and fetal monitoring technology.

- Sibley’s Maternal Fetal Medicine Program provides specialized expertise in managing high-risk pregnancies. Program experts use sophisticated technology and testing to diagnose, monitor and consult on complex conditions and complications that can arise during pregnancy. They also offer comprehensive genetic consultation, screening, testing and interpretation of results.

Orthopaedics

- Sibley is a leader in orthopaedic medicine, including treatment of sports injuries and fractures, and hip, knee and shoulder replacements.
- Sibley performs among the highest number of joint replacements in the area.
- Sibley’s Center for Rehabilitation Medicine provides non-surgical orthopaedic care, including physical therapy, exercise and other rehabilitation services, and the use of a warm-water therapeutic pool.
- There is a dedicated orthopaedic floor with a clinic for patient rehabilitation.

Emergency Services

- Sibley’s Emergency Department is ranked among the top 10 percent in the nation for patient satisfaction and is certified as a Primary Stroke Center, demonstrating long-term success in improving outcomes.
- Sibley earned the bronze standard—Level 3 Geriatric Emergency Department Accreditation (GEDA) from the American College of Emergency Physicians (ACEP) for the hospital’s leadership in providing Emergency Department (ED) care for geriatric patients under ACEP’s new GEDA program.
- Sibley’s Emergency Department was recognized as a “Top Vote Getter” in the Best Emergency Room category in the Readers’ Pick issue of *Bethesda Magazine*.

Other Specialty Services

The Sibley Senior Association offers a variety of wellness programs for those 50 years and older, including Club Memory, free health screenings, exercise and fitness programs and presentations by medical experts on important health issues.

The Sibley Center for Weight Loss Surgery’s team of multidisciplinary experts provides comprehensive, coordinated care to help people lose weight and restore health.

The Sibley Sleep Center, accredited by the American Academy of Sleep Medicine, offers advanced technology for the diagnosis and treatment of sleep problems.

Sibley is one of an elite handful of U.S. medical centers with an **Innovation Hub** dedicated to stimulating and testing new health care ideas and solutions. This real-world laboratory acts as a catalyst for sparking, developing and implementing breakthrough approaches that will promote health and wellness, meet today’s challenges and transform the future of care.
